PRESENTS

THE
"YSER FRONTLINE" & "YPRES SALIENT"
TOUR

NIEUWPOORT

3, 4 & 5 May 2014

On the occasion of the 100th anniversary of the start of World War I, the MG Car Club Belgium aims to organize an International Commemoration Weekend.

This weekend of remembrance calls at the "Westhoek", the Belgian war scenery par excellence. This is the place where during World War I a fierce battle was fought along the Yser and the hills surrounding Ypres.

Particularly the flooding of the low-lying Yser plain, registered from the lock complex (see picture on first page) in Nieuwpoort, made sure any further movement of the occupier in the Belgian sector of the front was paralyzed for 4 more years.

For this reason one can safely state that Nieuwpoort was strategically determining for the course of WWI.

That is why we have decided to start the commemoration weekend in Nieuwpoort.

Saturday 3rd May 2014: Nieuwpoort

9.00- 12.00: Registration of participants

Nieuwpoort, situated on the estuary of the Yser, is a historical town! It was totally destroyed both during WWI & WWII, but has been rebuild stone by stone to its original condition. Nieuwpoort, called the Monte Carlo of the Belgian Coast, is a city in expansion where the yachting marina, the harbour channel and the fish market figure as main public attractions.

Nieuwpoort, located along the E40 (Calais-Brussel), has a fluent access from Calais (France: 80km), Dunkerque (France: 35km), Ostend (Belgium: 25km) and Zeebrugge (Belgium: 50km).
