INFORMATIONS

***) Mg "A" International and Tuscany Raid 2015**

The event that the Regional Centre Tuscany presents consists of two events that are intertwined: one is the international meeting called "MG" A "International" dedicated to honor the 60th anniversary of the famous model "A", and the other is the "TuscanyRaid 2015", the National demonstration that the CR Tuscany organizes every two years to bring this wonderful region to the national members.

***) Who and how you can participate in the meeting**

Be open to all members of the Italian and foreign MGCCI belonging to its foreign clubs.

MG "A" International is reserved for members only holders of a MG model "A" and can participate in both the "Program 6 days" or "Program 2 days."

"Tuscany Raid 2015" is open to all members, Italian or foreign, owners of a MG that is not a model A, and can participate only in the "Program 2 days."

To see the specific programs attachments.

***) How many teams can participate**

At MG "A" International will participate in total (between both programs 2 or 6 gg.) Maximum 40 cars (only MG A), while the "Tuscany Raid 2015" will be open to the maximum 30 cars of each model.

Total 70 cars

In the case of redundancy will be activated waiting lists for each section.

***) Incriptions and their deadlines:**

Registration for the MG "A" International "program six days" will be accepted until 30 April 2015 (vd. Accommodation options) while for the "Program 2 days" and the "Tuscany Raid 2015" will continue until May 30. For registrations after this date call the Organization (Riccardo Rosi 335 1269577) to evaluate the hotel availability.

***) Inputs Museums, art galleries, guided tours**

In order not to affect the overall costs and allow maximum freedom to the participants, the Organization chose not to include the costs of the many museums and tours available, so that only those who prefer to visit museums etc ... will pay individually its ticket.

***) Motorcycle couriers to our later**

The duty "lose no-one during transfers" will be done, as well as a very detailed road book, supplied to each crew, even by a group of motorcycle couriers that alternate junctions most important, able "to keep the flock united".

***) Mechanical Assistance and Tow truck will follow us all the time.**

For your safety and peace of mind we have taken steps to organize a mechanical assistance, specializing in classic cars, we will follow during all phases of the meeting: that for any eventuality of simple solution we have highly skilled staff in order to ensure the quick repair of the fault and continue the meeting.

If the fault should be more important, and not repairable road, a tow truck service will bring your car to the hotel and from there you can take your decisions with confidence.

The costs of mechanical and possible Wrecker service will be borne by those who will benefit services.

***) Trucks.**

Those who arrive with trucks will have the opportunity to park the truck in the parking lot directly arranged near the Hotel Alcide.

***) Our service staff will help us and monitor us**

Since you are provided many moments of rest, and so many parking operations, we decided to organize the service staff that in addition to facilitate us parking maneuvers, will also make the necessary supervision in the several hours that cars remain parked without our presence. Moreover, this staff will be available to us upon any eventuality.

***) Security night**

For Your tranquility the parking area predisposed to Hotel Alcide, during the rest of the car (usually from 20.00 to 8.00) will be subject to armed supervision.

***) Will not be made reorders: absolute freedom.**

The streets of Chianti not give a chance to make reorders as a sequence of about 70 cars, as we will, might block traffic. So we will not re-orders ... however each team will be equipped with an effective road-book that will allow him to find the location. Follow the road book is important because even in case of failure can make identifying your position indicating number written in the bottom left in each icon but if you do not know where you become really awkward. In case there was the need for a stop on the road remember every three cars to leave a generous space to allow any overtaking other vehicles.

***) Forward fast cars the slowest behind.**

Those who prefer a slow (or is the same car that imposes), must give way to the fastest cars: there are cars that need to speed because otherwise they risk overheating very harmful: so if you want to go slow and plan pull over and let go. The tuscan roads are usually good but small and it's difficult overtaken cars.

***) A time-table will guide you to not miss appointments.**

Each crew will be equipped with a time-table that will allow him to have at hand the times for appointments of the meeting. So the departures from a place, the start of a visit and everything else will be well specified in such a way that everyone can organize his time as he thinks, without having to be forcibly all stacked to not lose the way.
